Create API User & Secret

The screenshot displays the MTN Partner Gateway interface. At the top, the 'Partner' header includes a search bar for account holders. The main content area shows details for an account named 'Test Open API' with ID '23767099'. The account is active, and its profile is 'MTNC Service Provider CashOut Fee Profile'. Below this, a table lists accounts with columns for Id, Display name, Status, Type, Profile, Balance, Reserved balance, and Available balance. The table contains two entries: one for 'FRI:60592064/MM' (Active, Money, External Service Provider Account Profile, FCFA 2,499) and another for 'FRI:64430412/MM' (Active, Loyalty Points, Default Loyalty Points Account Profile, LOY 0). A message at the bottom states 'No transactions found between 02/09/2022 and 02/11/2022'. On the right sidebar, the user 'MTNTestCollection' is logged in. The 'My settings' section includes a 'Dark' theme toggle, a 'Change' button for the password, and a 'Configure' button for API access, which is highlighted with a red circle.

Id	Display name	Status	Type	Profile	Balance	Reserved balance	Available balance
FRI:60592064/MM		Active	Money	External Service Provider Account Profile	FCFA 2,499		
FRI:64430412/MM		Active	Loyalty Points	Default Loyalty Points Account Profile	LOY 0	LOY 0	LOY 0

- The API user and Secret needs to be created.
- This API user and Secret are used by partner to access Partner Gateway

Create API User

The screenshot shows a web application interface for MTNTestCollection. A modal window titled "API access: Test Open API" is open, displaying a form with the following fields:

- Account:** A dropdown menu with "Select account" as the placeholder.
- Provider callback host:** A text input field.
- Payment server URL:** A text input field.

At the bottom of the modal, there are two buttons: "Close" and "Create API user".

The background interface includes a header with an "Action" dropdown, a sidebar with a user profile icon and "MTNTestCollection" text, and a main content area with a table of accounts. The table has columns for "Display name", "Status", and "Available balance". Below the table, there is a "Search" button and a message: "No transactions found between 02/11/2022 and 02/12/2022".

The sidebar also contains a "My settings" section with a "Switch theme" toggle (set to "Light"), a "Password" field with a "Change" button, and an "API access" field with a "Configure" button. At the bottom of the sidebar is a "Logout" button.

- Select the account with type MONEY.
- Enter your application callback host (eg: myapplication.com)
- Enter your application callback URL (eg: <https://myapplication.com/callback>)
- Click on create API user

Copy API Key

The screenshot displays the MTNTestCollection user interface. On the left, a sidebar shows the user's profile and settings. The main area features a table of API access entries. A modal popup titled "API access: Test Open API" is open, showing details for a specific API user. The API key is displayed as a long string of characters, which is highlighted by a red circle and a blue arrow pointing to it. The popup also includes buttons for "Close", "Remove API user", and "Generate new API key".

API access: Test Open API

API user:	4e2a7529-3746
API key:	55f80190a247
Account:	FRI:60592064/MM
Provider callback host:	myapplication.com
Payment server URL:	https://myapplication.com/callback
